Good News for People Who Like Family Chats

Bargain Rates on Long Distance Calls to Indiana Points From 9 P.M. to 4:30 A.M.

Like to get *double your money's worth?* You can do just that tonight . . . or any night!

Reduced rates for "station-to-station" long distance calls between any two Indiana telephones from 9 P.M. to 4:30 A.M. make this bargain possible. (Station-to-station calls are those on which you are willing to speak with anyone at the number you are calling.)

Talk Twice As Long

Under the low Hoosier Night Rates you can talk twice as long, and pay no more than formerly on calls of 25 miles or more. In other words, from 9 P.M. to 4:30 A.M., the initial period *has been increased from 3 minutes to 6.* And when your call lasts longer than 6 minutes—the additional charges above the 6-minute base rate are measured by each extra 2 minutes you talk, instead of 1 minute as in the past.

Ideal for Family Visits

We recommend "station" calls if you want to save time and money. They are ideal for family visits when you are calling an out-of-town residence telephone number.

Please remember that the Bargain Hoosier Night Rates affect only station-to-station long distance calls made between any two Indiana telephones. They *do not* affect calls to points outside the state . . . those rates remain the same.

Evening and Sunday station-to-station rates and the three-minute minimum period still apply within Indiana from 6 to 9 P.M. on weekdays and all day Sunday until 9 P.M.

AIDS TO PROPER MAILING

Use street address and postal zone number in your return address appearing in upper left corner of your envelope or parcel, as well as on your letterhead.

Sender's name and address, placed inside of parcels, would prevent the loss of parcel post. Always address mail for city or our-of-town delivery to street address and postal zone number. Always address mail for rural route delivery to rural route number and correct box number. It is essential that postal zone numbers be used in order to expedite the handling of mail matter.

Insure valuable parcels. Wrap parcel post in heavy paper, and tie knots securely.

How to borrow money for the first time

Instead of worrying, figure out the exact amount you need. (It's just as wrong to borrow too much as too little.)

Then telephone Seaboard for any questions you may have and a personal appointment. This will save you time.

You may borrow $25 TO $500

Every month more than 150,000 money-troubled people exchange their problems for a Seaboard loan—and you may, too.

Need money? Don't worry—apply at

Really modern homes have extension telephones. There's no bigger bargain in convenience.

Telephone Number Booklet

Ask at any Indiana Bell Business Office for a personal telephone numbers booklet.

Jot down the numbers you call frequently—and if there's an out-of-town number you don't have, be sure to add it to your list when the operator gives it to you.

Long Distance is twice as fast when you call by number.

LONG DISTANCE was FAST Now It's FASTER

Your calls will go through faster and easier if you use the Area Code with the out-of-town number every time

PLAN *AHEAD* FOR TELEPHONE SERVICE

WISE HOME PLANNERS the nation over are including provisions for concealed telephone wiring right in their building plans. It's a modern touch which adds greatly to the convenience and beauty of a new home.

MODERN CONSTRUCTION METHODS often make it impossible to feed wires through finished walls and floors in order to conceal them. Telephone wiring placed in the walls during construction, conceals the wire and provides for neat telephone outlets wherever you desire them . . . now or in the future.

FOR INFORMATION and free advisory service on concealed telephone wiring, call the Telephone Company and ask for
